

# HS10 Electronic Target System

## How much do you spend on Black Paper!!!

Would you believe the cost for black witness paper is about 1¢ /shot? This means if you are seriously training and shooting over 10,000 shots per year, your *witness paper* cost could exceed over \$100 /year. If you are a range or club, you can now enjoy substantial savings. The HS10 does not require witness paper thus keeping your consumables cost to a minimum.

### Pick the kit that is right for you!!
